

## College of Information Technology

### IT Degree Programs for 21st-Century Learners

Employers are looking for well-trained, highly skilled IT applicants who can hit the ground running and be immediate contributors. Western Governors University's College of Information Technology has pioneered award-winning degree programs that acknowledge students' existing skills and enable them to graduate with both a degree and industry-recognized certifications, giving them a head start in their chosen careers.

2022 Graduates  
**6,372**

*\*Data as of March 31, 2023*

*"I was offered two different positions that I declined because when I told my current employer that I would be leaving due to an offer from the NSA, they doubled my salary. At that moment, I realized there are no limitations on my degrees from WGU, just like there are no limitations on my life. I can stand next to a graduate from one of the best colleges in the world and have the same level of knowledge, if not better."*

## About WGU

WGU is a nonprofit online university that serves more than 143,000 students nationwide, with over 310,000 graduates in all 50 states. It was established in 1997 by 19 U.S. governors with a mission to expand access to high-quality, affordable education. WGU has been recognized by the White House, state leaders, employers, and students as a model that works in postsecondary education. In just 25 years, the university has become a leading influence in the development of innovative workforce-focused approaches to education.
