

# SOUTH CAROLINA

## Institutional Authorization

Western Governors University is authorized to provide its educational programs in South Carolina through a state authorization reciprocity agreement (NC-SARA). More information about NC-SARA is available on their [website](#).

## Licensure Pathway

Candidates applying for a teaching license in South Carolina do so through the direct licensure pathway. Direct licensure is available when a state allows candidates to be licensed upon completion of a program that is approved in the state of Utah. Candidates apply for licensure upon WGU confirming completion of an out-of-state program. They are not required to obtain a Utah license. Complete details on licensure requirements in the state of South Carolina as well as information on applying using the direct licensure pathway can be found in the [licensure handbook](#).

South Carolina requires three courses for middle grades certification, which WGU's advanced programs do not include. Candidates will need to complete these courses at a South Carolina institution in order to be eligible for middle grades certification. To add a secondary mathematics endorsement, South Carolina requires 26 hours of mathematics content coursework. WGU's program does not include all 26 hours. Candidates must have already completed some coursework at previous institutions or plan to complete additional coursework outside of WGU.
