

2022 Annual Report

Harris Poll Graduates Study

Each year, the WGU-Harris Poll Graduates Study shows how graduates rate their overall experience with WGU's academic programs, whether they possess the competencies required in their field of work, and their employment status after graduation.

The 2022 Graduates Study was conducted online from Oct. 5 to Nov. 7, 2022. Harris Poll surveyed 1,542 WGU graduates and 1,443 national, non-WGU graduates in each of the four degree fields WGU offers: teaching, business, information technology, and nursing.
