School of Business Students Learn at the Speed of Business

The WGU School of Business offers career-aligned, affordable programs designed to give students the future-focused skills they need to lead and thrive at the speed of business. With a focus on innovation, the school teaches students to effectively apply cutting-edge tools, including today's AI systems, in real-world business settings. The school offers certificates, undergraduate, and graduate programs, all designed to meet workforce needs while advancing students' careers.
