Online IT Degrees With Certifications Included

As one of the largest conferrers of IT and cybersecurity degrees in the country, nonprofit WGU's School of Technology is helping to meet the growing demand of IT professionals with its certificates and accredited, industry-aligned degrees. By earning valuable IT certifications along with bachelor's and master's degrees, students are highly employable and equipped with the skills they need to succeed in the workplace.

AI at WGU

WGU helps students understand how AI works and where it fits into their future. Our programs are designed to respond to the need of increased AI integration in the tech sphere, building skills to create a future that embraces the power of AI.

Industry certifications

In addition to developing relevant curriculum in collaboration with top industry experts, School of Technology integrates in-demand industry certifications into bachelor's and master's programs at no additional cost to students.

The School of Technology's bachelor's degree programs in Computer Science and Cybersecurity and Information Assurance are accredited by the ABET Computing Accreditation Commission. In addition, the Cybersecurity and Information Assurance bachelor's degree program has been awarded a National Center of Academic Excellence in Cyber Defense (CAE-CD) designation by the National Security Agency (NSA).
