

WESTERN GOVERNORS UNIVERSITY®

Celebrating 20 years of changing lives through innovation.

In 1997, a bipartisan group of 19 U.S. governors collaborated to establish Western Governors University, an online, competency-based university designed to meet the needs of 21st century students. In just 20 years, WGU has become one of the largest universities in the country, providing accredited bachelor's and master's degree programs in high-demand fields to more than 82,000 students and 85,000 graduates.

Congratulations and best wishes on your next 20 years!

Michael O. Leavitt*
